PAID CLINICAL EXTERNSHIP & INTERNSHIP OPPORTUNITIES

Doctoral Externships & Master's-Level Internships | 100% Virtual Program (Serving Utah)

www.healingphoenixpsychology.com

PROGRAM AT A GLANCE

Position Levels:	Doctoral Externs & Master's-Level Interns / Associates
Setting:	100% Virtual Private Practice / Modern Telehealth Model
Client Population:	Diverse Outpatient Adults (Ages 18+) across Utah
Compensation:	Paid Placement | $40 – $50 per hour (commensurate with academic level)
Supervision:	Direct, high-level supervision and developmental mentorship from Licensed Psychologists and experienced clinical social workers within a collaborative, junior-colleague model.

CUSTOMIZABLE TRAINING TRACKS

Trainees may focus on a single specialization or combine tracks to build a customized clinical practicum:

1. Trauma-Informed Practice (Mindful-Somatic Focus)

- Conceptualize and treat complex, relational, and developmental trauma through an experiential, body-centered lens.
- May include select funded formal Mindful Somatic Trauma Training leading to a professional certification through the Integrative Psychology Academy (contingent upon hour volume/duration commitment).

2. General Mental Health & Group Psychotherapy

- Manage a versatile outpatient caseload addressing anxiety, depression, and major life transitions.
- Opportunity to co-lead up to two virtual interpersonal or psychoeducational therapy groups.

3. Comprehensive Psychological Evaluation & Testing

- Administer, score, and interpret remote cognitive, executive, adaptive, and personality test batteries (primarily doctoral).
- Master differential diagnosis, neurodivergence assessments (ADHD/Autism), and validating report writing.

CORE CLINICAL FRAMEWORKS & SPECIALIZATIONS

Our clinicians provide supervision across foundational and contemporary evidence-based modalities—including ACT, CBT, DBT, CFT, IPT, Yalom's group psychotherapy, and Feminist psychotherapies. Trainees conceptualize cases through four overarching lenses:

- **Trauma-Focused, Mindful-Somatic & Experiential Care:** Autonomic nervous system regulation, bottom-up processing, and integrative parts work (informed by SE, EMDR, SMPT, IFS, and Hakomi).
- **Culturally Informed Care (CIT):** Systemic awareness, racial identity development, and anti-oppressive frameworks.
- **Attachment-Based & Relational Dynamics:** Emotional self-awareness, assertiveness, and relational repair.
- **Existential & Values-Centered Care:** Navigating identity development, meaning-making, cultural/religious concerns, and faith transitions.

HOW TO APPLY

We accept applications on a rolling basis for upcoming academic semesters and training cohorts. Please submit your CV and a brief statement of interest detailing your degree program, desired track(s), and timeline to:

Email: **admin@healingphoenixpsychology.com** | Website: **www.healingphoenixpsychology.com**

(Note for University DCTs: We are readily available to provide clinical CVs, licensure documentation, and onboarding materials upon request).
